

The Changing Migraine Management Landscape: Can New and Emerging Therapeutic Options Benefit Your Patients?

FACULTY PRESENTER

M. Susan Burke, MD, FACP

Clinical Associate Professor of Medicine
Sidney Kimmel Medical College at Thomas Jefferson University
Senior Advisor
Lankenau Medical Associates, Lankenau Medical Center
Philadelphia, PA

PROGRAM OVERVIEW

This program aims to discuss traditional and newer management options for migraine headaches with regard to distinct mechanisms of action, efficacy, safety, indications, routes of administration, and incorporation into acute and preventative treatment methods. A second tenet of the program will be to encourage open communication and shared decision-making as core clinical components of patient-centered migraine management

TARGET AUDIENCE

This activity is intended for US-based headache specialists, neurologists, and primary care providers involved in the care of patients with migraine.

LEARNING OBJECTIVES

Upon the completion of this program, attendees should be able to:

- Contrast the distinct mechanisms of action, efficacy and safety profiles, indications, and routes of administration associated with new and emerging therapeutic options for the acute and preventative management of migraine
- Incorporate new and emerging therapeutic agents into treatment algorithms for patients in need of acute or preventative management of migraine
- Facilitate open communication and shared decision-making as part of patient-centered migraine management

ACCREDITATION STATEMENT

Med Learning Group is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians. This CME activity was planned and produced in accordance with the ACCME Essentials.

CREDIT DESIGNATION STATEMENT
